

STAND UP TOGETHER MAKE A CHANGE

**Stand up together make a change
We want you, Letz Lead's our name**

I've seen the real, seen the hate and seen the fake
because my inner spirits become too cold to break

All my life I've been told to wait
no instigators in my life that ain't no mistake

I imagine life without any struggle
putting pieces together like a picture puzzle

Trying to find the escape on the path to succeed
to help me cope with the things I need

With a broken heart, outspoken mind
I'm trying to figure out who I am inside

With the answers to my questions I can accomplish my goals
with this story that I'm telling I hope it gets told

**Stand up together make a change
We want you, Letz Lead's our name**

I've never liked being told what to do
being pushed by bullies is an issue to

Getting laughed at every time I walk down the hall
my feelings are being played like a bouncing ball

The secret of overcoming your tears within
is to remain in battle and be the last to win

So sit back relax, let me tell you some steps
with defeating the problems leaving nothing left

People trying to tell me how to live and what to do
criticized by others has blinded black and blue

So be yourself don't listen to whatever they say
fight through it all with a smile that's the positive way
